

AL- Shefaa

The First AI Hospital

By Eng :

Mohamed Elsayad

About us

We are the first virtual hospital powered by Artificial Intelligence , We work to diagnose four diseases: diabetes, breast cancer, liver disease, and Alzheimer.

Who do we serve?

People who suspect that they suffer from one of the four diseases mentioned above

People who want to check on their health condition

PEOPLE WHO HAVE UNDERGONE MEDICAL TESTS AND ARE WAITING FOR THEIR APPOINTMENT WITH THE SPECIALIST DOCTOR

Goals & Objective

Diagnosing diseases at an early stage

**Diagnosing diseases without
the need to visit a doctor**

**Diagnosing diseases quickly
and saving time and money**
